

# BIG PICTURE® JOIN THEIR DOTS

Each and every individual can understand how they fit into the Organisation so you can help turn Challenges into Opportunities. Work is worthwhile, you have control over how you do it and can tell your own story. Join, grow and perform as an individual, in your team and as a successful business.

In 25 years working with businesses I couldn't find the tools to engage the wider team to deliver significant change in the time we had- they needed to see their own big picture. I developed my own approach- a natural process and a visual language to tell a story. Think Employee Engagement but not as you know it!

We deliver Programmes, Workshops and Kits to People-first, Values-based businesses who are willing to find out what their People really think.

An enabler for cultural shifts and an antidote to constant change for you as an innovator to take back the business .. all with a sense of fun!

Mart 

Why does your Organisation exist?

the purpose of my

business is ..

What are your Products & Services?

my product is ..

my service is ..

my customer is ..

Who is your Customer
